

DEFENSE FINANCE AND ACCOUNTING SERVICE
ARLINGTON

1931 JEFFERSON DAVIS HIGHWAY
ARLINGTON VA 22240-5291

SEP 15 2003

The Honorable Duncan Hunter
Chairman
Committee on Armed Services
U.S. House of Representatives
Washington, DC 20515

Dear Mr. Chairman:

In compliance with Title 10 U.S.C., Section 2805, enclosed is notification of an unspecified minor construction project. This project will create additional administrative space and a computer testing laboratory from undeveloped warehouse space, Building 603, Pensacola Naval Air Station. Building 603, Naval Air Station currently houses Defense Finance and Accounting Service (DFAS) mission functions. The new space will be occupied by the DFAS Enterprise Local Area Network Platform Engineering Team and Vulnerability Assessment Team currently located at Saufley Field, Pensacola, Florida.

Should you need further assistance, please contact Ms. Jan Nordsiek, DFAS, Administrative Services, 317-510-2336 or e-mail Jan.Nordsiek@dfas.mil.

Sincerely,

Thomas R. Bloom
Director

Enclosure:
As stated

cc: The Honorable Ike Skelton,
Ranking Member

Notification of the Intention
To Obligate Unspecified Minor Construction Funds
(Title 10 U.S.C., Section 2805)

Installation Project Description

Estimated Cost of Project

Defense Finance and Accounting Service
Building 603, Pensacola Naval Air Station

\$800,000

Defense Finance and Accounting Service Enterprise Local Area Network Platform Engineering Team and Vulnerability Assessment Team are located at Saufley Field, Pensacola, Florida. Current space is inadequate. Power capacity is at maximum and no physical space is available to expand the test lab for additional equipment. Overloaded electrical circuits pose a major risk for fire. Space in the test lab limits the equipment available to support the mission of this organization.

No additional space is available at Saufley Field. Commercial administrative space in the Pensacola area is cost prohibitive. There is excess space in Building 603, Naval Air Station, Pensacola.

Naval Public Works Center, Pensacola will complete the project. Due to the excessive number of computers proposed for this area, electrical upgrades and increased heating ventilation and air conditioning support are required.
